

## PROCESSING SLIDES

You need to purchase exactly Kodak Ektachrome EPY 135-36 (64T). This is tungsten balanced film and is exactly matched to our light source. Anything else will come out some funny color and is inappropriate, no matter what some camera salesperson tells you.

For slide processing, here are the new recommendations:

### **CBOP & Camera Brokers**

1909 Chestnut, Philadelphia, PA 19103  
(215) 977-9970 (215) 977-9907
